This 1929 home is located on a 50 foot lot that backs onto Crescent Park. One of the few homes that backs onto a green space in Crescent Heights. This would be a prime location to re-develop into a luxury single family home or an attached home configuration. The current home is 3+1 bedrooms with 2 full baths. There was an addition that included a full basement completed in the 1980's and the home has been well maintained since. There is also an oversize double garage with 2 single doors in the very large fenced South backyard.
